25 June 1957

MEMORANDUM FOR: Project Comptroller

**SUBJECT : Probable Contractual Obligations Against FY 1957 Funds
for Lockheed Aircraft Corporation**

1. You will recall that we recently allotted tentatively a figure of \$1,347,000 out of our remaining FY 1957 funds for a new contract with Lockheed Aircraft Corporation. You are hereby advised that this amount can be reduced by \$57,000 to a new tentative allocation of \$1,290,000. The contract number will be SP-1915 and will take effect in FY 1957 for requirements generating in FY 1957.

2. An additional \$1,710,000 is also tentatively allocated for this contract (SP-1915), but the obligation of this amount is contingent upon a decision to enter into a program with the Department of the Navy. In the event any portion of the \$1,710,000 is not obligated in FY 1957, such portion will be available to cover obligations against possible Ramo-Wouldridge contract amendments which may be written prior to 30 June 1957.
